## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statements (IDS) submitted on 12/24/02, 01/24/02 and 03/20/03 have been considered by the examiner.

### ***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of claims 1-6 under 35 USC 102(e) made in paper no. 13 is repeated. Applicant has traversed the above rejection by arguing that Hokodate et al, the applied prior art, fails to teach or suggest the optical scanning system as recited in the amended claims 1 and 3-6. The examiner disagrees because the newly added feature recited in each of the amended claims 1 and 3-4 is disclosed in Hokodate et al patent. Hokodate et al, in Fig. 44, clearly shows a coupling lens for coupling the light beam (L) from the light source and a temperature compensation unit comprising control circuit (124) and a corrector lens (121). The corrector lens (121), as illustrated, has a positive power to converge the light beam from the coupling lens in at least one of a main scanning direction and a sub-scanning direction.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
